### Microsystems Increases Client Base by Adding Three New Customers

**Downers Grove, IL – June 1, 2009** – Microsystems, a leading document creation and quality control software provider for the legal and life sciences sectors, announced today that the following law firms recently purchased Microsystems software for their document production environments.

- Manches LLP (London, UK)
- Ogilvy Renault LLP (Toronto, Ontario, Canada)
- Selman Breitman LLP (Los Angeles, CA)

Microsystems software helps law firms realize greater productivity, enhanced profitability and improved client service. [Knowledge Partnership](#) provides lawyers, secretaries and IT staff with software-based document analysis, formatting and quality-control solutions, as well as emergency document troubleshooting and automated Microsoft Word skills assessment. [D3 \(Dynamic Document Drafting\)](#) software enables law firm practice areas and business groups to quickly and easily produce document first drafts with accurate, approved content that is easy to add, update and share.

*"We are pleased to continue growing the ranks of law firms that depend on Microsystems to achieve a core competency in document production," said Tom O'Sullivan, Chief Executive Officer of Microsystems. "With Knowledge Partnership and D3, our clients are well positioned today and in the future to deliver a high level of client service by producing documents with the proper content and formatting."*

#### [About Microsystems](#)

Founded in 1995, Microsystems is a global leader in document lifecycle software and services designed to improve the total document creation and quality control processes of document-intensive businesses. The company helps more than 650 client firms and companies increase document production efficiencies and reduce costs and risk. Microsystems is based near Chicago in Downers Grove, IL.
